## **ASSOCIATION OF WHEELCHAIR CHILDREN**

**Telephone: 0844 544 1050**

The Association of Wheelchair Children's mission is to enable wheelchair-using children throughout the UK to reach their full potential. Their primary objective is to enable independence by providing practical wheelchair skills training, assessment and support to young wheelchair-users and their families. They also work to raise awareness and understanding of disability issues, particularly those relating to wheelchair-using young people.

Currently they have two teams of full time qualified therapists run over 100 training and assessment days all over the UK. Where they find young people in chairs unsuitable for independent mobility they will make sure that they receive a suitable wheelchair upgrade free of charge from the NHS after AWC has trained them. They will then back this up with ongoing advice, advocacy and support. AWC also provides training for professionals who may work with young wheelchair-users and they have begun a programme of awareness raising in schools and colleges.
